

# Bug tracking for Rapsodia with trac

The [Rapsodia home page](#) provides details about the Rapsodia tool. This wiki is intended for bug tracking with trac and does not contain any explanation of Rapsodia or its applications. Trac is fairly self explanatory but some information can be found following the links below.

**To avoid spam for the ticket creation and modification we require a login either with [OpenID](#) (above with "*OpenID Login*") or MCS credentials (above with "*Login*").**

## Starting Points for trac

- [TracGuide](#) -- Built-in Documentation
- [The Trac project](#) -- Trac Open Source Project
- [Trac FAQ](#) -- Frequently Asked Questions
- [TracSupport](#) -- Trac Support
