

Parallel-NetCDF version 1.0.3, released on 8 December 2008, had a bunch of little fixes throughout the code

- many bug fixes to the fortran bindings ([r606](#), [r607](#), [r608](#), [r641](#)),
- eliminate several memory leaks ([r605](#), [r629](#), [r640](#))
- build failure if configured with --disable-fortran ([r628](#))
- bugfix from serial netcdf when dealing with very large variables ([r604](#))
- many warning cleanups for itanium ([r598](#),[r599](#),[r600](#),[r601](#),[r602](#))
